

Summer Critique

Critique #3 Thursday, August 30 7PM @ 214E21 SVA Photography Building

Michael Foley -- Foley Gallery

For those interested in showing their summer work and having it critiqued, there will be a series of four meetings at the school throughout the summer for photo majors entering their senior year. The summer months in between school are the best time to further your seminar portfolio and prepare for the critical thesis year. This critique is an ideal opportunity to hear new insight into your images and other media from students and professionals whom you haven't heard from before.

Refreshments Provided

Space is limited and filling up quickly.
